What are the Areas?

Medical: Triage—testing blood sugar & blood pressure. Diagnosis—patients are seen by a doctor and their ailments are diagnosed, prayed for, and treated (or referred - for more invasive cases). Pharmacy—from pre-natal vitamins to Tylenol or antibiotics, it is our prayer that we are able to meet our patient's most basic medical needs.

Dental: Patients are seen by a dentist who treats them for cavities, gingivitis, or more serious oral ailments. All patients are educated in the area of good dental hygiene.

Optical: Team members give eye examinations and prescribe reading and/or distance glasses to patients—for many, it is their first pair. All team members are trained by staff in this area. (Luke 4:18)

Hair Care: Turning beauty from ashes (Isaiah 61:3), team members in this area comb and style hair and

paint nails. Loving the afflicted, helping reflect internal beauty on the outside, is what we are called to do—and enjoy doing!

Children's: Jesus said, "Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these" (Matt 19:14).

Team members in this area play with little ones all day. Through arts & crafts, face painting, Bible lessons, soccer and more, the love of Christ is shown to the children in Mexico City.

sharing the love of Christ in word and deed

Our Mission

OSI was established in 1983 as a non-denominational organization. The vision of OSI is to motivate and mobilize concerned Christians to reach the poor in places that are under-served. We also aim to strengthen existing ministries in their own presentation of the Gospel. The ministry of OSI is concerned for all people, those who know Christ and those who do not.

Our Partners

OSI partners with a wide range of Christian Denominations and affiliations to extend the Kingdom of God on earth. We welcome the participation of anyone that acknowledges the saving grace of Jesus Christ and has the support of his or her pastor and local church.

Our Fields

In addition to Mexico, the Lord has guided OSI to serve in these strategic fields: Egypt, Morocco, China and the United States. These countries are important links to South America, the Arab world, East Asia and beyond.
